VAUGHAN'S HIGH-GRADE FERTILIZERS

Prices for Florists F. O. B. New York on ton lots. Cartage charged on smaller quantities.
The Yield and Quality of Vegetables Depend Upon Continuous and Rapid Growth

It has been demonstrated that market-garden crops of the best quality are those which are grown under conditions which permit of a continuous and rapid development. Any delay in the growth of a lettuce or radish causes that sharp and pungent flavor of the former and the bitterness and toughened fibre of the latter, beets become stringy, etc. Plant food of the right amount and kind controls the yield and quality of market-garden products more than

any other condition, and it is neither wise nor economical to depend upon the natural condition of the soil or the application of stable manure only for profitable crops.

 **NOTE REDUCED PRICES THIS SPRING**

VAUGHAN'S LAWN AND GARDEN FERTILIZER

Formula 3-11-1, meaning 3 per cent available ammonia, 11 per cent phosphoric acid, 1 per cent potash. A very desirable high-grade all-around fertilizer. There is sufficient ammonia to give the young plants a quick and vigorous start and maintain a healthy growth. Grass and early garden truck need lots of phosphoric acid, which this supplies. For lawns, make first application in the early spring when frost is out of the ground, distribute evenly 25 pounds of fertilizer to every 1,000 square feet of lawn. In seeding down a new lawn, scatter double the amount, 50 pounds of fertilizer in every 1,000 square feet; rake thoroughly, then sow seed.

5 lbs., 40c; 10 lbs., 75c; 25 lbs., \$1.25; 50 lbs., \$2.25; 100 lbs., \$4.00; 500 lbs., \$18.00; 1,000 lbs., \$35.00; 2,000 lbs., \$65.00.

VAUGHAN'S 3-8-1 FERTILIZER.

BONE, BLOOD AND POTASH

Fertilizer Mixture 5-8-7 Per Cent Analysis

This is our best brand of concentrated manure; excellent for mixing into potting soil or as a top dressing. It is a **money-maker**. For potting soil, use about 20 pounds to a cubic yard of soil, and for the dressing scatter it about as thick as lawn grass is sown, after loosening the surface of the soil. It is excellent for Carnations if applied by the end of October or in November. It can also be applied as a liquid manure by using an 8-inch potful to a barrel of water. 25 lbs., \$1.25; 50 lbs., \$2.25; 100 lbs., \$4.00; 500 lbs., \$18.00; 1,000 lbs., \$34.00; 2,000 lbs., \$63.00.

BONE AND BLOOD. For Cabbage, Cauliflower, Corn and other crops of big surface growth; not desirable for root crops except it is used in connection with potash, salts, or hardwood ashes, and if so used it is especially adapted to fruits, if applied early. For garden crops use 300 to 500 lbs. per acre.

Price, 25 lbs., \$1.25; 50 lbs., \$2.25; 100 lbs., \$4.00; 500 lbs., \$18.00; 1,000 lbs., \$34.00; 2,000 lbs., \$64.00.

If used on the lawn at the rate of a ton or more per acre as a first application, and annual dressing of three hundred pounds afterwards, will insure a thrifty growth of dark color, exemption from ill effects of dry weather and freedom from weeds. Price, 25 lbs., 85c; 50 lbs., \$1.50; 100 lbs., \$2.75; 500 lbs., \$10.00; 1,000 lbs., \$19.00; 2,000 lbs., \$33.00.

PULVERIZED LIMESTONE. The agricultural value of lime has been known for centuries, it is an economic neutralizer for soil acidity, also beneficial to the soil in many other ways; it improves the texture of the soil, lets in air and moisture liberates nitrogen and other plant food, makes your soil sweet—enlivens it—that is, makes conditions favorable to plant growth by giving life to the soil bacteria which make it productive. Lime will be found very beneficial in the growing of all garden crops, fruit trees and flowers. Try it on the lawn too. Apply after the land is plowed or dug for a crop, scattering with a lime distributor, 2 tons or more per acre, or by hand in small gardens—about a large handful to a square yard. Packed in cotton sacks—no paper.

Price, 10 lbs., 40c; 25 lbs., 75c; 50 lbs., \$1.25; 100 lbs., \$1.75; 500 lbs., \$6.50; 1,000 lbs., \$10.00; 2,000 lbs., \$18.00.

VAUGHAN'S "ROSE GROWER" BONE MEAL.

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. Free from acid, and a superb article. It is made from bone accumulated in large slaughter houses, and should not be compared with the Bone Meal made from cattle heads and feet gathered upon the Western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it and is thus quicker in its action. Analysis: Ammonia $4\frac{1}{2}$ to $5\frac{1}{2}$ per cent; total phosphoric acid, 22 to 25 per cent; bone phosphate, 48 to 54 per cent. Price, 5 lbs., 85c; 25 lbs., \$1.50; 50 lbs., \$2.75; 100 lbs., \$4.75; 500 lbs., \$22.00; 1,000 lbs., \$40.00; 2,000 lbs., \$75.00.

REGULAR BONE MEAL. 25 lbs., \$1.15; 50 lbs., \$2.00; 100 lbs., \$3.50; 500 lbs., \$16.00; 1,000 lbs., \$30.00; 2,000 lbs., \$56.00.

VAUGHAN'S SHEEP MANURE

This is a pure, natural Manure, and its effect is immediate; it is excellent for mixing with the soil for greenhouse plants—one part manure and six parts soil. Strewn over and dug into the vegetable garden or placed directly in drills or hills, it promotes a rapid, steady growth until maturity. It makes the richest, safest and quickest Liquid Manure. For use in liquid form, one pound to five gallons of water will make a liquid which can be used with safety daily if necessary.

Price, 25 lbs., \$1.25; 50 lbs., \$1.85; 100 lbs., \$3.00; 500 lbs., \$14.50; 1,000 lbs., \$27.00; 2,000 lbs., \$50.00.

NITRATE OF SODA or Chili Saltpeter. Nitrate of Soda is not a substitute for other Manures, but we recommend it as the cheapest and best form in which to apply Nitrogen to plants. Gardeners who are using farm manure should continue to use it, but use Nitrate of Soda in addition to other fertilizers. If your object is to grow maximum crops you must furnish the plant with Nitrogen.

For the Home Garden apply as a solution one ounce to two gallons of water. Price (subject to market changes) 25 lbs., \$1.50; 50 lbs., \$2.50; 100 lbs., \$4.50; 500 lbs., \$22.00; 1,000 lbs., \$40.00. Write for prices on larger quantities.

MURIATE OF POTASH. Potash is essential in all soils for indoor and outdoor plants.

This is the best form in which to apply it. Price, 25 lbs., \$2.50; 50 lbs., \$4.50; 100 lbs., \$8.00; 500 lbs., \$37.50; 1,000 lbs., \$70.00.

SHREDDED CATTLE MANURE. An efficient high-grade natural fertilizer for all general purposes, manufactured by special process from selected fresh cleanings from cattle pen. Price, 100 lbs., \$3.00; 500 lbs., \$14.50; 1,000 lbs., \$27.00; 2,000 lbs., \$50.00.

SULPHATE OF AMMONIA Used for its Nitrogen. A very desirable fertilizer for all plants in which a large leaf development or rapid growth is desired. Use 1 pound to 50 square feet of ground or bench, or a tablespoonful to a bushel of soil, or 3 gallons of water. Price, 25 lbs., \$2.25; 50 lbs., \$4.00; 100 lbs., \$7.50; 500 lbs., \$35.00.

FLOWER SEED NOVELTIES

BALL'S WHITE ASTER

**BALL'S
WHITE
ASTER**

THE seed of this splendid Giant Aster of the Late Branching type—the product of twelve years' selection to develop the ideal of a perfectly double flower, of flawless color—was offered in 1921 for the first time.

In the Fall of 1908, George J. Ball, a Sweet Pea and Aster specialist, selected a plant among his Late Branching White Asters on which the flowers were solidly double, so much so that from eight to ten flowers only fifty seedlings were grown the following year. It has been grown and the seed carefully selected every season since.

The flowering season comes between the Royal and Late Branching types, filling in between the early and late glut of flowers. It grows to a medium height with full, distinctively centered blossoms, ideally formed for long distance shipping.

The seed of this Aster is about two-thirds the size of ordinary varieties. Price, $\frac{1}{2}$ oz., 75c; $\frac{1}{4}$ oz., \$1.35; oz., \$5.00.

ASTER. American Beauty Carmine-Rose. 2½ ft. Is similar in type of flower and growth to the well-known Late Branching Asters, but differs in that all the large blossoms are produced on much longer and heavier stems. The flowers are fully double to the last and are a most lovely shade of bright carmine-rose. Trade pkt., 25c; $\frac{1}{4}$ oz., 40c; oz., \$1.40.

American Beauty. Purple. Same as above, but a beautiful rich velvety purple. Trade pkt., 25c; $\frac{1}{4}$ oz., 40c; oz., \$1.40.

American Beauty—Lavender Beauty. Beautiful clear lavender. Trade pkt., 25c; $\frac{1}{4}$ oz., 45c; oz., \$1.60.

American Beauty—Sept. Beauty. Delicate soft shell-pink. Trade pkt., 25c; $\frac{1}{4}$ oz., 45c; oz., \$1.60.

Heart of France. This opens red as the purest ruby, deepens with age and retains its remarkable color to the very end. The petals appear strikingly changeable, showing now a glow and sheen quite unique, now a soft warm velvety texture. In any light, natural or artificial, Heart of France is startlingly beautiful and will command instant admiration. Trade pkt., 25c; $\frac{1}{4}$ oz., 40c; oz., \$1.40.

CLEVELAND CHERRY. This is an improvement on Jerusalem Cherry. Differs from it in habit of growth, which is dwarf and compact and the larger number of berries produced. One of the best house plants for window decoration. Trade pkt., 25c; $\frac{1}{4}$ oz., 80c; oz., \$3.00

DIDISCUS Coeruleus, Lavender Lace Flower. 3 ft. An unknown plant which ought to be grown more frequently. Long stemmed lavender flowers; look like blossoms of Queen's Lace Handkerchief. A constant bloomer. The culture is not at all difficult, only the seed is somewhat slow in germinating. To be sown in a medium hot frame, like Phlox or Verbenas in February or March. Seed will germinate in about

four weeks. Keep frame closed until the seedlings form their leaves, then give plenty of air when weather permits. To be planted out in May in partial shade. Trade pkt., 25c; oz., \$1.40.

HOW VAUGHAN'S SEED STORE MAINTAINS ITS STANDARDS

Forty-five years ago, Vaughan's Seed Store was established in response to a demand from market gardeners for purer and more fertile seeds than they could obtain elsewhere. Since then, through technical improvements in testing seeds and proving types, higher purity and germination standards have been established and with them Vaughan's Seed Store through its officials and employes has constantly kept pace.

The latest methods for cleaning and storing seed, testing for germination and analyzing for purity are practiced; while at the same time the advantages acquired from forty-five years in business are retained. Particular care is taken with flower seed, as Vaughan's Seed Store is the recognized headquarters for flower seed in this country. Our stock is purchased from the growers of the best strains in localities most favorable to seed production; and all are tested and analyzed. It is well known among florists that if you fail to get what you want everywhere else, you can count on Vaughan's

A Scene in Our Seed Laboratory Where All Seeds Purchased Are Tested for Purity and Germination Under Supervision of a Government Trained University Graduate.

While keeping up his supply of tried varieties, the seedsman must be ever on the lookout for new; and the house which values its reputation carefully avoids recommending novelties which have not been thoroughly proved. This requires expensive trial grounds. In Vaughan's seed farms in Michigan and Illinois, all novelties not proven on the grounds of the introducer are tested for one or more years before being catalogued, and here, also, seed of the old varieties are tried out year after year to make sure that our stocks are suffering no deterioration.

Here, also, we grow much of the seed we sell, of varieties for which the soil and climate are favorable. Peas, beans, melons, cucumbers, sweet corn and gladioli are grown on our Michigan farm.

At our greenhouses and nurseries at Western Springs, Ill., which supply our trade with indoor and outdoor flowering plants, the same expert care is exercised as in the seed departments.

Vaughan's Cannas

OUR EXPERIENCE WITH CANNAS

Our Canna fields at Western Springs when in bloom during August and September make a grand showing and present a wonderful blaze of color. They attract thousands of visitors, both professionals and amateurs. Last year we grew over ten acres of standard sorts and novelties, besides 1,000 seedlings. Canna culture is one of our main specialties now as it has been for over thirty years.

Our Cannas have won important prizes wherever exhibited—(Many Gold Medals), Chicago, Omaha, Buffalo and St. Louis, and at the Panama-Pacific Exposition.

We ought to know something about Cannas, and realize that many so-called novelties are being sent out every year whose only claim for existence in many instances is a new name. We had to pay dearly in discovering that ignorant and unscrupulous growers give almost any name to their stock of Cannas, as long as the color is somewhere near correct. To them any red is a "New Chicago," any yellow a "Florence Vaughan," etc.

Our Cannas are true to name, and furthermore, the stock we use for propagation has been specially selected on points of vigor, true type, color, size of flowers.

In our list of sorts will be found all the good old standard kinds, and many of the best novelties, the inferior varieties being discarded every year as the merits of the newer ones are proven.

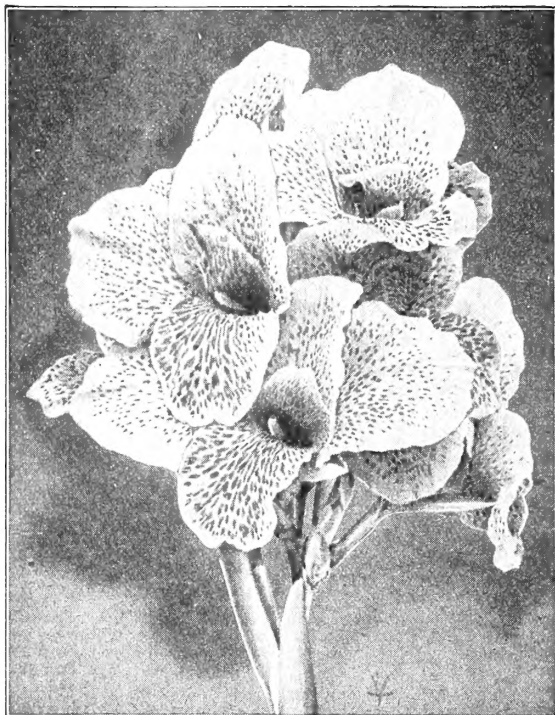

Prices are for Dormant Roots up to APRIL 1st, after which Pot plants are ready.

GRAND DUKE ALEXIS

DAHLIAS

In the following list we offer what we consider the very best of the foreign and American Dahlias, which we observed in our extensive trials last season. While roots may generally be planted by April 15th, it is hardly wise to set out the growing plants until May 10th to 15th. Contrary to popular opinion, we maintain that Dahlia plants are always superior to dry roots, and are willing to take the responsibility of recommending them. Prices are for growing plants from 2 1/2-inch pots, ready April 15th.

YUCCA FILAMENTOSA

Ornamental and Flowering Shrubs

Our shrubs are Nursery-grown and are transplanted every two or three years. They are nice, shapely bushes with plenty of good fibrous roots, and are such plants as are in demand by the first-class retail trade. They should not be compared to stock that is never moved from the cutting or seedling beds until sold.

Our Nursery is located at Western Springs, 15 miles west of Chicago, on the C. B. & Q. R. R., two blocks south of 47th Street, on the continuation of East Boulevard.

Visitors are invited to inspect our stock at any time. We have a choice lot of specimens such as are not usually seen. Our customers will be pleased with the class of stock we send them.

Specimens. This term is applied to plants that are perfect in height and diameter as well as shape, and are recommended for immediate effect.

Shipping Directions. All stock is sold F. O. B., Western Springs. Packing charges to be added on all orders for shrubs, dormant roses, fruits, trees and vines, at cost. Always give full and explicit shipping directions, as our responsibility ends on delivery to the express or freight office in good condition. **All trees, shrubs and plants shipped subject to customer assuming risk regarding their own State Nursery Inspection Regulations. Certificate furnished with each shipment.**

Where personal selection of stock is made at our Nursery we charge according to its value.

Write for pamphlet on Strawberry Culture.

AROMA. (Per.) Late. One of the most popular late varieties. Fruit large to very large; holds its size well throughout all the pickings. Berry is roundish, conical, smooth and perfect in form and of a beautiful bright glossy red in color; very firm and of high quality. Its rich aromatic flavor has suggested its name. The habit of spreading which this variety possesses opens the way for the sunlight to reach the crown. The leaves are broad, clean and smooth and of a dark green color. Price, 100, \$3.00; 1000, \$8.50.

BIG JOE. (Per.) Late. Fruit large roundish, conical, even in size and shape and holds its size well until the last picking. Dark glossy red, firm and of excellent quality, adapted to practically all conditions of soil and climate. A splendid producer. A good pollinizer for the late imperfect blossoming varieties. Also known as the Joe Johnson. Price, 100, \$1.25; 1000, \$9.00.

BRANDYWINE. (Per.) Medium late. Large deep red fruit, and a fancy market product. Flesh firm and red all the way through. The flavor of Brandywine is very distinctive. A general favorite because of its many fine points and its high productivity. Foliage dark green, roots deep, enabling it to endure more dry weather than most varieties. It thrives in any kind of soil and under any reasonable climatic conditions. Price, 100, \$1.25; 1000, \$9.00.

DR. BURRELL. (Per.) Medium early. The berries are large, delicious and beautifully formed. The surface of the berry is a deep glossy red only a trifle lighter in color than the Senator Dunlap. The meat is solid and rich. Its long and heavy root system makes it a splendid drought resister. The foliage is large and of a dark green, having a tough leaf tissue insuring freedom from leaf spots. Price, 100, \$1.00; 1000, \$8.00.

GIBSON. (Per.) Medium early. Berries are large and regular in shape, holding their size well to the end of the season. Color rich red. Flavor is neither sweet nor sour, but just right for canning. Extremely productive, in fact we know of no variety that will produce more quarts of berries per acre than the Gibson. It makes a strong vigorous plant that withstands adverse conditions admirably. This variety seems to embody every requirement necessary for a profitable berry. We recommend it and know you will not make any mistake in planting Gibson. Price, 100, \$1.00; 1000, \$8.00.

HERITAGE. The plant is very large, of extremely heavy texture, some single-crown plants carrying foliage with a spread of 20 to 22 inches. Deep rooted and extremely free in fruiting, beginning to ripen its fruit about early midseason and continuing to very late. The berry is dark, shiny, crimson to the center. Has a perfect blossom. Carries an unusually heavy green calyx, adding decidedly to its market value. Extremely large from the first picking to much above the average for the main crop and continuing large after the better known varieties are gone. We have fruited the Heritage for several seasons and every year grow more enthusiastic over it. Don't fail to include this one in your list, as it will prove a money-maker for you. Price, 100, \$1.00; 1000, \$8.00.

PREMIER. (Per.) Early. Berries are large, beautifully formed, red through and through; flavor delicious. A splendid shipper. The deep heavy rooting system makes the plant a strong drought resister, and it is especially adapted to any soil or climate, giving you a big crop of fancy berries which will sell at highest prices. Where extra fancy early fruit is wanted we advise this. Price, 100, \$1.50; 1000, \$10.00.

SENATOR DUNLAP. (Per.) Midseason. The fruit is dark red with glossy finish, shading to a deep scarlet on the underside. The meat is a bright red all through and exceedingly juicy. It succeeds everywhere and with everybody—the new beginner as well as with the veteran grower—but should not be allowed to mat too thickly. For a medium sized productive early to midseason berry you need not hesitate to plant Dunlap. One of the best and most popular. Price, 100, \$1.00; 1000, \$8.00.

PROGRESSIVE. (Fall bearing.) You can have strawberries just as easily in the Fall as in the Spring by planting the Progressive which is the best of all Fall or Everbearing Strawberries. This is the strongest growing plant of all the Fall-bearing varieties we have tried. The plants are very large and heavily rooted, producing a phenomenal crop of medium to large fruits of a dark red color, both inside and out, and of sweet mild flavor. Think of having all the berries you can use on your table during the months of September, October and November, and later, if not killed by freezing weather. Price, of Fall bearing, 100 for \$1.75; 1000 for \$12.50; by express at buyer's expense.

SPECIAL OFFER No. 19. A Strawberry collection, 100 fine strong plants (Spring delivery only) in four good sorts, our selection, postpaid, for \$1.15.

THE following are produced on contract for Vaughan's Seed Store at Chicago and New York. They should be sound, well matured and the best selection of the crops of each sort, as thus far, for crops amounting to many millions of bulbs, we have paid our growers for over thirty-five years, 100 cents on the dollar.

VAUGHAN'S NEW HYBRID AMARYLLIS

The bulbs are all large, three inches or above and are sure bloomers. We are offering this splendid stock at half the prices asked by Dutch and English growers. The habit is similar to the popular Giant Branching, vigorous in growth, long stiff stems. In shape and size the bloom is round, full and very large.

ASTERS

ASTER, Tall Section—Continued

AMERICAN ASTERMUM

An attractive and descriptive name for a new race of asters which belong to the Comet family. The plants are of strong upright growth with 12 to 15 strong stems 20 inches long, each carrying a flower of perfect form. The seed we offer has been carefully grown, rogued and selected.

OTHER AMERICAN ASTERS

Lavender Gem. One of the most charming sorts. The flowers are of a true lavender shade and the petals are gracefully curled and twisted, and the blooms are borne on long stems.... $\frac{1}{4}$ oz., 40c .25 1.40

Heart of France. Heart of France opens red as the purest ruby, deepens with age and retains its remarkable color to the very end. The petals appear strikingly changeable, showing now a glow and sheen quite unique, now a soft warm velvety texture. In any light, natural or artificial, Heart of France is startlingly beautiful and will command admiration..... $\frac{1}{4}$ oz., 40c .25 1.40

Peerless Pink. The flowers are enormous, globular in shape, many five inches across, of a most delightful and pleasing rich shell pink. First flowers appear about the middle of August, but the plant is at its zenith 4 weeks later.... $\frac{1}{4}$ oz., 40c .25 1.40

Crimson Giant. This shade has been one which has seemed to lack intensity of color, but in this variety the blood-red blossom is particularly bright..... $\frac{1}{4}$ oz., 40c .25 1.40

Perfection White..... $\frac{1}{4}$ oz., 40c .25 1.40

Sensation. The reddest of all red asters, the color being a dark rich garnet or ox-blood red which glistens in the sunshine like a live coal. The plants are of the free branching habit, about 18 inches high, the double flowers averaging about 3 inches in diameter are borne freely on stems about 12 inches long..... $\frac{1}{4}$ oz. 35c .20 1.20

Soleil D'Or (Golden Sun), Best Yellow Aster..... $\frac{1}{4}$ oz., 40c .25 1.40

Mammoth Non-Lateral Branching White. 2 ft. This is without doubt the largest Aster on the market. Many of the flowers will measure four inches in diameter. The plants grow about two feet high with a low branching habit, and the flowers which are borne on non-lateral stems are full, with petals curled and incurved, making the flowers appear like a cross between an Ostrich Feather and a Giant Branching..... $\frac{1}{4}$ oz., 40c .35 1.80

Mammoth Non-Lateral Branching Blue. 2 ft. Very like the preceding, except the flowers are a medium shade of blue..... $\frac{1}{4}$ oz., 40c .25 1.40

American Beauty. Carmine Rose. 2 $\frac{1}{2}$ ft. Is similar in type of flower and growth to the well known Late Branching Asters, but differs in that all the large blossoms are produced on much longer and heavier stems. It is the first of a new strain of late branching habit, and of robust growth. The flowers are fully double to the last and are a most lovely shade of bright carmine-rose, almost identical with the world-famous American Beauty rose. Each plant forms a perfect bush..... $\frac{1}{4}$ oz., 40c .25 1.40

BALL'S WHITE ASTER

A Sphere of Pure White Petals

The seed of this splendid Giant Aster of the late Branching type—the product of twelve years' selection to develop the ideal of a perfectly double flower, of flawless color—was offered in 1921 for the first time.

In the Fall of 1908, George J. Ball, a Sweet Pea and Aster specialist, selected a plant among his Late Branching White Asters on which the flowers were solidly double, so much so that from eight to ten flowers only fifty seedlings were grown the following year.

It has been grown and the seed carefully selected every season since. In 1918, three-quarters of an acre netted \$2,320. An exceptionally good market helped, but this variety has always sold for 50 per cent more than ordinary White Asters.

The flowering season comes between the Royal and Late Branching types, filling in between the early and late glut of flowers. It grows to a medium height with full, distinctively centered blossoms, ideally formed for long distance shipping.

The seed of this Aster is about two-thirds the size of ordinary varieties. $\frac{1}{8}$ oz., 75c; $\frac{1}{4}$ oz., \$1.35; oz., \$5.00.

We were the introducers of this new Aster, jointly with the originator, Mr. Geo. J. Ball.

Lilium Regale (The Regal Lily). It is absolutely hardy and is excellent for forcing. It has been predicted that this will become the Easter Lily of the future, and being so hardy, may be grown at home. The flowers are white, slightly suffused with pink, with a beautiful shade of canary yellow as the centre, and extending part way up the trumpet. It is delightfully perfumed, reminding one of the jasmine, and lacking the heavy oppressive odor of most lilies. Blooms out of doors early in July, and seedling bulbs will flower the second year.....	1,000 seeds, \$5.00; 100 seeds, 65c

VAUGHAN'S GIANT PANSIES

VAUGHAN'S INTERNATIONAL MIXTURE

Vaughan's International Pansy Mixture was first offered by us in 1889. We import from all the best European sources. Each year has added to the quality of its flowers and variety of its colors. We buy every year, novelties of known merit to improve the mixture; it is always complete, always the latest and always the best mixture. We add to all Pansy Mixtures which we now buy, more than 50 per cent of the choicest named kinds obtainable, each in correct proportion. This is one of the Specialties that has established the reputation of Vaughan's Flower Seeds, and one which we maintain most carefully. Trade pkt., 50c; 1/8 oz., \$1.50; 1/2 oz., \$5.00; oz., \$10.00.

VAUGHAN'S GIANT PANSY MIXTURE

Embraces, besides all the separate shades and colors, five special strains not listed elsewhere, and which can only be had in this and our International Mixture. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau and the splendid Cassier strain. Trade pkt., 50c; 1/8 oz., 75c; oz., \$5.00; 1/4 lb., \$18.00.

VAUGHAN'S CUT FLOWER MIXTURE

This mixture is put up by ourselves and contains mostly light colored sorts. We have sold this mixture for several seasons to some of our Chicago cut-flower growers, who have realized big returns from the sale of flowers. Pansies are as easily grown as violets, requiring less care and bring better results. Trade pkt., 25c; 1/8 oz., 60c; oz., \$4.00.

NEW EARLY-FLOWERING GIANT PANSIES

The new strain produces its giant flowers about four weeks earlier than other known types. In March, when the old type pansies hardly show any buds the plants of the new strain bore from 3 to 5 of their giant flowers.

Early Flowering Giant (Hyemalis)

- Yellow
- Dark Blue
- Light Blue
- Ice King, White with black eye
- Jupiter, dark purple-violet
- Mars, cornflower-blue
- North Pole, pure white
- Snow Storm, snow-white, dark seeded
- Wodan, black

Each of the above Early Flowering, Trade Pkt., 25c; 1/8 oz., 50c; oz., \$2.00.

Mixed, Trade Pkt., 25c; 1/4 oz., 40c; 1 oz., \$1.50.

CHICAGO PARKS BEDDING MIXTURE

This is a mixture made by ourselves from 20 different and distinct varieties of this type. While the flowers of this strain do not grow as large as those of the Giant Pansies, they excel them by a much greater number of flowers to a plant. Trade Pkt., 25c; 1/4 oz., 40c; oz., \$1.40; lb., \$20.00.

VAUGHAN'S P. P. (Popular Price) MIXTURE OF PANSIES

This mixture, like all "Vaughan" mixtures, is made up by ourselves from separate colors and strains of the Giant and Chicago Parks Bedding types and will furnish a large variety of colors with a good proportion of giant flowers. Trade pkt., 25c; 1/8 oz., 50c; oz., \$3.00; lb., \$30.00.

SEEDS OF BIENNIALS AND HARDY PERENNIALS

Many of the biennials and perennials are now as important to florists as Asters, Sweet Peas, Verbenas, etc., are among the annuals. Some can be forced, such as Delphinium, Canterbury Bells, etc., while many others sell as readily as Geraniums if grown

in pots, not to speak of the cut-flower sorts, such as Coreopsis Gypsophila, Chrysanthemum, Shasta Daisy, Physostegia, etc. They are really needed in every florist's establishment that caters to the better-class of trade. The demand for them is increasing.

Vaughan's New Snowball

One of our Specialties. We know our strain is the equal of any that can be produced. We have tried nearly every other on the market and we have never yet come across anything superior to **Vaughan's New Snowball**. It is the result of years of careful selection by a most capable and painstaking gardener who grows the seed especially for us on the island of Amager, near Copenhagen, Denmark, where growing conditions are ideal for the production of perfect seed heads. **Vaughan's New Snowball** is the best general purpose variety for either spring or fall planting. Heads are usually 9 to 10 inches across perfectly white, solid, deep and compact.

Pkt., 25c; ¼ oz., 60c; ½ oz., \$1.10; oz., \$2.00; ¼ lb., \$7.50; lb., \$30.00.

Vaughan's Earliest Dwarf Erfurt

Combines all pedigree points—earliness, purity of color, dwarf habit and fine grain. A profitable market garden sort.

Pkt., 20c; ¼ oz., 55c; ½ oz., \$1.00; oz., \$1.85; ¼ lb., \$7.00; lb., \$28.00.

Dry Weather

For dry climate and dry seasons. Very sure heading and second early. Heads larger than Snowball and snow white.

Pkt., 25c; ¼ oz., 60c; ½ oz., \$1.10; oz., \$2.00; ¼ lb., \$7.50; lb., \$30.00.

Danish Snowball

This is a grand second early. It is the result of long, careful selection, and uniformly produces even, regular heads. Through many seasons it has proven itself reliable. Pkt., 10c; ¼ oz., 40c; oz., \$1.40; ¼ lb., \$5.00; lb., \$20.00.

Many of the Sphagnum Moss swamps in the Wisconsin district have been so worked out that the remaining sections contain only old deposits, frequently full of brush, weeds and grass. Our Moss is from one of the largest and cleanest swamps in the Wisconsin cranberry region and the Sphagnum is bright, clean, of new growth, and free from brush or dead moss. Our contract requires the bales to be of the full standard size, which is 45x14x16 inches, solidly packed. We own our moss at right prices, and on a quality basis can meet all competition.
